THE COSMIC EXPERIENCE

at Camp Clementine

Please join us for a fun-filled summer as we introduce Maria Montessori's amazing Cosmic Education!

Maria Montessori believed that children, even young ones, should feel a connection to the world around them. It is with this goal in mind that we are introducing our new summer program. The cosmic area of the Montessori classroom is designed to show the child his or her interconnection with all people – and their own place in the world. Through hands-on experiences the children will explore things that are closest to them, expanding outward to the wonders of our universe.

Here are just a few of the highlights that will enhance our cosmic curriculum at Camp Clementine:

- **Led by our own Montessori teachers**, campers will continue to experience the fundamentals of the Montessori philosophy
- **Weekly Swim Lessons** at Fitness Alive Swim Academy
- **Visits from local experts** in various fields relating to our weekly themes e.g. The Franklin Institute, The Philadelphia Zoo, Quiver Farm, Estilo Dance Studio, Snapology, Music with Ms. Anna, Philadelphia School of Circus Arts, Paper making with Ms. Winnie,...
- **Daily variety of** art, music, cooking, movement, fiber arts, experiments, nature experiences...
- **Plenty of time** to relax, play games and choose work!
- **Fountain Fridays at Sister Cities Park!** We will continue our Friday tradition of splashing with friends and having great summer fun!
- *Our wonderful summer program will end with a **Family fun field trip** for an out of this world experience!*

Since it has been ... necessary to give so much to the child, let us give him a vision of the whole universe. The universe is an imposing reality, and an answer to all questions.... All things are part of the universe, and are connected with each other to form one whole unity. - Maria Montessori

Follow the stars...
your child's summer cosmic experience

PROGRAM

Chi **Week 1 – June 19th - 23rd**
 All living things need energy! We will explore and experience various sources of energy. Discover how the foods we eat, the movement of our bodies, Mother Nature and much more give us energy

*Including a visit from **The Franklin Institute** to explore water as a source of energy*

It's All about Me **Week 2 – June 26th - 30th**
 Our bodies are made up of so many different parts! We will discover what makes us human and probe into our differences and similarities

*Including a visit from the **Philadelphia School of Circus Arts** and **Dentist G***

My Family and Friends **Week 3 – July 5th - 7th**
 We all have families and friends who help take care of us! Who makes up our family, and what makes them so special?

*Including a visit from **The Traveling Philadelphia Zoo***

Logan Square **Week 4 – July 10th - 14th**
 Clementine is located in the wonderful Logan Square neighborhood of Philadelphia. We will head out to meet our neighbors and explore our surroundings as well as invite special neighbors to our school

*Including a visit from **The Academy of Natural Sciences** – “Everyone needs a home”; the Fire Department Engine 43 and the Police District 9*

The City of Brotherly Love **Week 5 – July 17th - 21st**
 Philadelphia is rich in culture and history! We will investigate what makes our city so unique and partake in experiences that only Philadelphia can offer

*Including a visit from **Paper Making with Ms. Winnie***

The Keystone State **Week 6 – July 24th - 28th**
 Our state insect is the firefly and our state drink is milk. We are home to the mushroom capital of the world and largest population of Amish people. We will explore and experience these facts and sights unique to our home state

*Including a visit from **Quiver Farm's Spinning Wheel Demonstration***

North America **Week 7 – July 31st - August 4th**
 As many of our students can tell you, North America is the 3rd largest continent in the world. But did you know it is made of 23 countries, home of every single major biome on earth and that these extensive biomes provide habitats to close to 1000 mammals?

*Including a visit from **The Franklin Institute** for “Build It Up”*

Third Rock **Week 8 – August 7th - 11th**
 Earth is home to a vast variety of culture, animals and plants. We will investigate the earth's elements and explore the different energies in nature

*Including a return of a camp favorite – **the chicks are back in town!***

The Milky Way **Week 9 – August 14th - 18th**

Earth is not the only planet in our solar system and the sun is one of more than 100 billion stars in the Milk Way! We will explore the various planets' characteristics

*Including a visit from **Estilo Dance Studio***

Our Cosmic Story **Week 10 – August 21st - 25th**

When we look up into the sky at night, we see the stars that make up our galaxy. We'll talk about all the things that we can see from earth that show us all the vastness of the universe

*Wrapping up the summer experience with fabulous **Family Field trip!***
